

SPECIFY LYON!

Premier Colors

Lyon's Premier color selections and/or a computerized match to your custom color offer a virtually endless combination of choices including two tone effects. Our preparation and finishing procedures deliver a superior enameled surface, highly resistant to chipping, cracking and corrosion, to create a lasting impression for your locker installation.

Note:
All color chips approximate the actual color as closely as possible.

Antimicrobial Finish

Fights bacterial and mold growth!

Lyon antimicrobial lockers are finished in an advanced powder coating technology that inhibits mold, bacterial and odor build-up on locker surfaces, as well as the touch transfer of microbes on locker handles and doors.

Here's how it works: Any moisture triggers the controlled release of powerful silver ions to provide superior antimicrobial protection

for decades. The antimicrobial compound is completely inorganic, less toxic than ordinary table salt, less irritating than talcum powder, and has been approved for medical devices and food contact applications.

We look at it this way: The cost is small. The peace of mind, immeasurable.

Antimicrobial finish lockers are available from stock in light gray (GY655) in the following sizes:

- Single Tier: 15"w x 18"d x 72"h
- Single Tier: 18"w x 18"d x 72"h
- Double Tier: 12"w x 12"d x 36"h
- Double Tier: 12"w x 18"d x 36"h

Application Examples:
School Locker Rooms
School Corridors
Food Processing Facilities
Healthcare Environments
