

# Modular Drawer Cabinets

## Organized Storage

Designed for Efficiency, Engineered for Strength!

## Why Choose Lyon Modular Drawer Cabinets...

...to provide you with the highest density storage solution for small to mid-sized products, while reducing your storage footprint by as much as 50%.

### Performance

The Lyon drawer suspension features the highest quality ball bearing rollers resulting in the "smoothest", most reliable operating drawers in the industry, empty and fully loaded.

### Accessibility

Full extension drawers provide 100% visibility to the stored product. Lyon drawers are ergonomically engineered to provide the best possible human reach points.

### Efficiency

Drawer interiors can be sub-divided into compartments for the storage of parts without cartons. Neat and organized storage improves inventory control.

### Security

Choose from many different types of latching systems to provide for the safe secure storage of valuable products.

### Modularity

Flexible design based on a "Building-Block" approach. From pre-engineered to custom-built products, Lyon offers an innovative array of easy order options to adapt to your future growth.

### NOTE:

With a fully loaded (400 lbs.) drawer capacity, Lyon averaged 8,000 cycles compared to 4,000 competitive cycles before drawer push-pull forces exceeded 50 lbs.

## Customizing the Right Storage Solution

Contact us with your special requirements; Lyon's engineering and manufacturing departments will develop a unique modular drawer cabinet to fit your special application.

## Quick-Ship Program

A unique manufacturing process that provides quick delivery of all Modular Drawer products shown in this catalog, usually within 10 working days.

*Pre-engineered modular drawer cabinets include six of the most popular cabinets with partition and divider kits installed.*
