All pre-engineered sections are 36" wide, 84" high, with shelves adjustable on 1/2" centers. For double row, back-to-back installations, use economical open back shelving on one side, common backs of closed shelving sections on the other side. Some assembly required. *Parts and components, see pages 50-51.*

Open Shelving Sections - Ideal for storing packaged stock and other material where high visibility is a concern.

Closed Shelving Sections - Can be used to divide work and storage space into separate areas.
