

Anchoring Systems

Important: In the interest of safety, Lyon strongly recommends that lockers be floor and/or wall anchored.

Anchoring Angle

For Lockers Without Legs

Locker Anchoring Angles (running from front to rear on the inside bottom of the locker) provide a bearing surface for the fasteners which are connected to the floor or locker base. Order one locker anchoring angle for each end of a row, plus sufficient quantity to provide angles on 36" centers. On single-row installations where backs are against a wall, lockers should be suitably wall anchored.

No. 5872 – For 12"d lockers

No. 5873 – For 15"d lockers

No. 5874 – For 18"d lockers

No. 5875 – For 21"d lockers

For more details – see assembly instructions packed with lockers.

Locker Foot

For Lockers With Legs

When backs are exposed (free-standing) a locker foot is recommended for all locker legs. When backs are against a wall and suitably wall anchored, locker feet are recommended on front legs only.

No. 5870

Number Plates

- Etched black figures on aluminum plate
- Numbers stocked from 1 to 999

Size: 2¾" w x 1" h

(Must be purchased in addition to locker order.)

For Lockers and Baskets
No. 5829

Safe-O-Mat Locking System

Master-Keyed Built-in Combination Lock

Flat-Key Locks

Master-Keyed Combination Padlock

Lock Options

Can be used with all locker handles, and retrofitted to existing installations.

Safe-O-Mat Locking System – A coin-deposit locking system. Designed to be installed like a built-in combination lock. Can be retrofitted to most existing lockers. Available from manufacturing schedules only.

Flat-Key Locks – Same lock fits all Lyon Lockers except Personal Effects & ExchangeMaster®. Easy to install and furnished with two keys. **No. 7020**

Built-in Combination Locks – Five combinations per lock with master key for emergency access.

Combination Padlocks – For use with Tamper Guard Handles, Single Point Latching Systems, Recessed Handles and Pull Handles.
