

8000 SERIES STORAGE SHELVING UNITS

FOR HEAVY-DUTY APPLICATIONS

All pre-engineered sections are 36" wide, 84" high, with shelves adjustable on 1-1/2" centers. For double row, back-to-back installations, use economical open back shelving on one side, common backs of closed shelving sections on the other side. Some assembly required.

Shelf Clips

Patented design, formed of tough, durable, hot rolled steel affords easy shelf adjustment on 1-1/2" centers using shelf clips.

T-Post Uprights

Quickly lock into place, on either side of uprights. Disengages easily to re-position shelves, no tools needed.

Open Shelves - high visibility is ideal for storing packaged stock, and other material without assigned shelf locations. Lapped and welded shelf corners provide added strength and durability.

Closed Shelves protect packages and unboxed items from dust, sunlight and other contaminants. Divide work or storage space into separate areas.

Shelf Clips
All shelving units are shipped with 4 per each shelf clips.
