

Used by Military Pilots for Flight Gear COMMAND™ GEAR LOCKERS

This heavy-duty, all-welded locker is the highest level solution for the storage and protection of all pilot flight-related equipment.

As an added protection, a high tech finish fights bacterial/fungal growth on locker surfaces, as well as the touch transfer of these microbes – 24/7.

FEATURES

- Open storage area for flight helmets
- Lockable upper storage compartment for personal effects
- Aluminum 3-1/2" x 2-1/4" label holder
- Heavy-duty, 16-gauge, 7/8" diameter hanging rods for flight gear, plus two side hooks for lighter gear
- Ventilated sides
- Large compartment to house the torso harness, G-suit/G-vest, survival vest and related flying equipment jacket and helmet bags
- Lockable lower storage compartment for additional equipment
- Ships set up
- Standard color: Putty. Lockers can also be custom painted in Flight Squadron colors
- Overall locker: 24"w x 24"d x 72"h
