## Small Parts Storage Solutions

Optimize your workspace and streamline your inventory with our small parts storage solutions. Products like our slide rack with small compartment boxes, bin storage units, and wall mounted cabinets are designed to keep your small components, tools, and materials organized and easily accessible. Our durable and versatile storage units offer the perfect blend of efficiency and reliability, helping you maintain a well-organized, clutter-free environment.

Our small parts storage solutions are perfect for Vendor Managed Inventory (VMI) systems. By allowing vendors to monitor and replenish stock levels, businesses can focus on core operations while ensuring optimal inventory levels without overstocking. This approach enhances supply chain efficiency, reduces carrying costs, and fosters stronger vendor partnerships.

All of our small parts storage products are made of heavy-duty steel and include a durable powder coat finish. All items are available in our most popular color options. Choose one color for all items, or mix and match to create an eye catching display in your facility.

DD - Dove Gray

YF - Red Baron

KK - Vulcan Black

## Portable Small Parts Storage

Perfect for workshops, garages, and industrial settings, the slide rack ensures your small parts are always within reach and neatly arranged.

The slide rack features full extension pull out trays to hold our small compartment boxes. You can work directly from the slide rack OR easily lift out the compartment box and bring it directly to your station!

## Slide Rack

Available with 2, 4, or 5 sliding trays to accommodate small parts compartment boxes. All units come with pre-drilled holes, allowing them to be easily stacked to maximize your storage space. Slide rack cases are available in two depths.
