GREENGUARD Gold Certified

The GREENGUARD certification includes health-based criteria for additional chemicals and also requires lower total VOC emissions levels. This also helps ensure that products are acceptable for use in environments like schools and healthcare facilities. By choosing products with GREENGUARD Certification, you create a healthier indoor environment for your home, office or institution.

The majority of our products have been certified as gold rated! You will find the UL GREENGUARD GOLD badge product details of our items.

LEED Initiative

In addition to being GREENGUARD Certified, we are committed to developing products as well as programs that positively impact the environment. Lyon is the clear cut leader in green initiatives with our goals to create healthier environments. We strive to lower operating costs, reduce emissions, as well as maintain an enviro-friendly product delivery system.

Our centrally located manufacturing facilities also stand within 500 miles of many metro areas for fuel-efficient deliveries. LEED provides building owners and operators a concise framework for identifying and implementing measurable green building design, construction, operations, and maintenance solutions. Lyon also set initiatives in place to reduce our environmental footprint. We've achieved the following LEED Accredited Points:

Sustainable Sites

- Reduced Site Disturbance: Development Footprint – Credit 5.2

Materials and Resources

- Recycled Content: MR Credits 4.1 and 4.2
- Regionally-sourced Products: MR Credits 5.1 and 5.2

Indoor Environmental Quality

- Low-Emitting Materials Painting: VOC-Compliant Paints and Coatings Credit 4.2

Lyon's exclusive LEED email address helps support architects, contractors, and distributors pursuing LEED information.
