

CELL PHONE LOCKERS

10-TIER CELL PHONE LOCKER

Easily add quick cell phone storage for any facility! Lyon's cell phone locker features a slim 9" wide frame and is available in 1-wide or 3-wide units. The 6" high legs provide additional toe room beneath the locker.

Add number plates to the pre-punched doors to help quickly identify each locker. Lockers are available with either a padlock hasp with friction catch or with electronic locks.

- Overall Frame Size: 9"w x 18"d x 78"h
- Individual Locker Size: 6-1/2"w x 6-3/4"h
- 18-gauge doors, 24-gauge body parts
- Full height, continuous hinge
- Available in Putty
- Ships Assembled

ELECTRONIC LOCK

Built-in digital key locks add a convenient option to secure a locker so people don't need to bring their own padlock. These locks come pre-programmed for shared use. A user enters their own 4 digit code to lock the door. Then when they enter it again it unlocks it and resets the lock for the next user. Control RFID cards are also available so you can reset a combination.

1-Wide: PP091807TXSUS4
3-Wide: PP0918073TXSUS4

HASP WITH FRICTION CATCH

The steel pull handle includes a hasp that can be secured with a user provided padlock. This friction handle features raised bumps that press on the frame hasp to hold the door closed when it is not in use.

1-Wide: PP091807TXSUS1
3-Wide: PP0918073TXSUS1

ADDITIONAL LOCK OPTION

Steel pull handles with hasps can be removed and replaced with built-in combination locks or keyed locks.
