

GOING GREEN AT LYON

Lyon is committed to developing products and programs that positively impact the environment. Whether the goal is creating a healthier environment, lowering operating costs, reducing emissions or maintaining an enviro-friendly product delivery system, Lyon is the clear cut leader in green initiatives within its industry:

- Lyon's new antimicrobial paint finish fights bacterial, fungal and mold growth around the clock on locker surfaces in public facilities like schools and hospitals
- Lyon's centrally located manufacturing facilities are within 500 miles of many metro areas for fuel-efficient factory-direct truck deliveries to major markets
- Four outlying regional distribution centers bring Lyon products close to customers throughout the USA with inventory replenishments handled primarily via rail to lower costs and minimize fuel consumption
- Lyon's exclusive email address helps support architects, contractors and distributors pursuing LEED information. Please send all LEED inquiries to LEED@lyonworkspace.com

LEED ACCREDITED POINTS:

Sustainable Sites

Reduced Site Disturbance, Development Footprint
Credit 5.2

Materials & Resources

Recycled Content

MR Credits 4.1 and 4.2

Regionally-Sourced Products

MR Credits 5.1 and 5.2

Indoor Environmental Quality

Low-Emitting Materials Painting, VOC-compliant
Paints and Coatings

Credit 4.2
