ERGONOMIC SIT-STAND STOOL

weight support reduces leg and foot stress

Take up to 70% of your weight off your legs and feet while increasing productivity at your workstation! The height adjustable seat pivots and rotates providing ergonomic body movement while working.

The seat height adjusts within a 10" range. The padded polyurethane seat is ergonomically formed. The seat rotates left and right with a memory return to the 12 o'clock position. Gravity locking system prevents the seat from moving down while in use.

- Seat height adjustment range 24"h - 34"h
- Seat dimensions 14"w x 8-1/2"d
- 20° pivot range for seat angle
- Tubular steel column construction
- Gravity locking system
- Handle and rollers for mobility
- Weight Capacity 300 lbs

No. NF2092N

Lift the adjustment paddle to change the seat angle within a 20° pivot range.

Small wheels embedded in the base provide easy transporting
