

# PALLET RACK

## IDEAL STORAGE FOR PALLETIZED ITEMS

Fully welded, roll-formed uprights with a teardrop design provide a greater strength-to-weight ratio. Upright structures are 100% MIG welded with precision K-brace and heavy-duty cross channel reinforcement for increased strength.

Roll-formed beams feature an integrated 1-5/8" step for decking and are completely enclosed for clean applications. Each beam has at least three studs to engage the tapered teardrop slots in the upright with a compression fit. Beams can be adjusted on 2" vertical centers. An integral safety lock automatically locks into place when the beam is properly seated.

Pallet rack uprights conform to the latest standards set by Rack Manufacturers' Institute LRFD Specifications.

## UNITS INCLUDE

- Starters Include 2 Uprights
- Add-ons Include 1 Upright
- 2 Beams per Level
- Front-to-Back Supports  
OR Wire Decking Panels

- Lake Green Uprights
- Safety Orange Beams
