## SLOTTED ANGLE

## INFINITE POSSIBILITIES!

Create and build an infinite number of custom structures with slotted steel angle. Easily solve unique storage problems with both the convenience and strength of this perforated angle steel. It's easy to build what you need, when and where you need it.
Use this punched angle to make either platforms around assembly projects or support framing for displays. You can also use angle slotted steel to create non-standard sizes of storage racks or build protective framing around machinery. Unique setups are often utilized in hospitals, museums, retail outlets, and lumber yards. The list of use cases is virtually endless!

Each slotted angle is clearly stamped on 3 -inch centers. This helps with quick and simple measuring and cutting. The perforated metal angles bolt together to form a wide variety of both beam and upright setups. Pieces cut easily with a Sawzall, hacksaw, or miter saw with a metal cutting wheel. Gusset plates provide extra strength at the corners.

| Type | Width | Depth | Length | Includes | Item No. |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 14-Gauge <br> Medium-Duty <br> Slotted Angle | 2-1/4" | 1-1/2" | 96" | 10-8' Slotted Angles 40 - Nuts and Bolts | NF6508 |
|  |  |  | 120" | 10-10' Slotted Angles 75 - Nuts and Bolts | NF6510 |
|  |  |  | 144" | 10-12' Slotted Angles 75 - Nuts and Bolts | NF6512 |
| 12-Gauge Heavy-Duty Slotted Angle | 3" | 1-1/2" | 120" | 10-10' Slotted Angles 75 - Nuts and Bolts | NF6520 |
|  |  |  | 144" | 10-12' Slotted Angles 75 - Nuts and Bolts | NF6522 |
| 14-Gauge Gussets | $6 "$ | $6 "$ | - | 12 - Slotted Angle Gussets | NF6572 |
| Additional Hardware | 5/16" | 3/4" | - | 100 - Nuts and Bolts | NF6578 |

## SLOTTED ANGLE

## LOAD CAPACITY GUIDE

Load capacities for formations illustrated are for your guidance only and include an adequate safety factor. Figures are based on a static load, evenly distributed on a pair of beams which are supported at both ends.

CAUTION: Consideration should be given to additional bracing depending on shock loading, method of handling stock and concetrated loads.

RED: Load capacity of 14-Gauge BLACK: Load capacity of 12-Gauge

| Longest Vertical Distance Between Horzontal Braces* | Uprights (Vertical) |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  | - |  |
| 10 ft . | - | - | 2,940 | 3,650 | - | 5,880 |
|  |  | 2,520 | 6,150 | 8,200 | 5,040 | 12,300 |
| 9 ft . | - | - | 3,460 | 4,550 | - | 6,920 |
|  |  | 3,770 | 6,750 | 9,200 | 7,540 | 13,500 |
| 8 ft . | - | 2,420 | 3,880 | 5,330 | 4,840 | 7,760 |
|  |  | 4,740 | 7,330 | 10,100 | 9,480 | 14,660 |
| 7 ft . | 980 | 3,130 | 4,310 | 6,110 | 6,260 | 8,620 |
|  | 1,480 | 5,700 | 7,850 | 11,100 | 11,400 | 15,700 |
| 6 ft . | 1,470 | 3,800 | 4,790 | 6,820 | 7,600 | 9,580 |
|  | 2,260 | 6,560 | 8,300 | 11,900 | 13,120 | 16,600 |
| 5 ft . | 1,850 | 4,410 | 5,220 | 7,550 | 8,820 | 10,440 |
|  | 2,850 | 7,400 | 8,750 | 12,700 | 14,800 | 17,500 |
| 4 ft . | 2,240 | 5,050 | 5,600 | 8,200 | 10,100 | 11,200 |
|  | 3,480 | 8,230 | 9,200 | 13,400 | 16,460 | 18,400 |
| 3 ft . | 2,585 | 5,550 | 5,930 | 8,770 | 1,1100 | 11,860 |
|  | 4,060 | 8,970 | 9,630 | 14,200 | 17,940 | 19,260 |

*To determine safe allowable load per upright member, select longest vertical upright section between horizontal braces. The capacities shown are for axial load only, and do not allow for side thrust or shock loading.

| Beam Sections | Beams (Horizontal) |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 3 ft . | 4 ft . | 5 ft . | 6 ft . | 7 ft . | 8 ft . | 9 ft . | 10 ft . |
| $\cdots$ | 720 | 520 | 380 |  | - | - | - | - |
| 18 | 1,620 | 1,150 | 920 |  |  |  |  |  |
| So | 1,135 | 810 | 550 | 350 | - | - | - | - |
