

TA-50 GEAR LOCKERS

military inspired strength and capacity

This heavy-duty, fully ventilated and all-welded locker is the ultimate storage solution. Inspired for government and military grade gear and equipment, this locker withstands harsh usage.

Formed-steel panels and strategic diamond perforations on the doors, back and sides maximize the strength and rigidity of the locker. The diamond perforations allow for full ventilation and air flow for your stored contents.

Also available as a galvanized locker which is more resistant to corrosion. The galvanized steel is ideal for areas with either high humidity or salt in the air near an ocean.

Chrome-plated, pad-lockable handle with a high security 3-point latching system.

1" coat rod and 4 coat hooks to hang coats, uniforms and heavy field dress.

- All-welded locker ships assembled
- Overall Locker: 42"w x 24"d x 78"h
- 16 gauge steel top with 14 gauge reinforced bottom, back, doors and sides
- Chrome-plated, pad lockable handle with a high security 3-point latching system
- 16 gauge steel shelf with center reinforcing channel for 200 lb. capacity
- Pre-punched holes in back, sides, and bottom for attaching lockers to each other and/or the wall or floor
